FOI REQUEST AND RESPONSE

I appreciate that there are costs involved with mountain fires but wish to ask under the Freedom of Information Act what are the costs per day for utilising helicopter support. It does not need to be actual, but a range x to y will be fine for now.

I wish to utilise this data as part of a land management proposal to be put to both RCTCBC and WAG.

The proposal is part of something that SWFS is supportive of yet RCTCBC and WAG are in continual denial in terms of meeting with the proponents of the proposal

South Wales Fire and Rescue Service does not incur any costs for the use of a Helicopter as it's fully funded by Natural Resources Wales.
