<b>FOI REQUEST</b>			
<p><b>I would like to make a freedom of information request please.</b></p> <p><b>Could you please provide me with the following information.</b></p> <p><b>The number of aerial firefighting platforms that can reach over 33 metres your fire service currently has in operation. Please provide a list of the appliances and the height they can</b></p> <p>We currently have no Aerial Appliances that can reach over 33 meters in the service.</p> <p>It would, however, be prudent to note that an aerial appliance would not be considered an essential element of fire fighting in a high rise building at the pre planning stage. The building, by design, should enable sufficient protection for fire-fighting internally.</p>
