<p><b>I am writing to make a request for information under the Freedom of Information Act 2000.</b></p> <p><b>In the last 12 months or to the last date records available please provide details of each call out you have had to make to incidents involving the rescue of animals.</b></p> <p>Please note that we do not record the specific type of animal rescued, only categories, as shown in the attached spreadsheet. The type of animal assistance (rescue) is also recorded under specific categories.</p> <p>The figures provided refer to incidents where we have been called out to rescue animals, if animals were rescued as part of another incident like a fire or a road traffic collision we would not record that an animal was involved.</p> <p><b>Where possible please provide the cost to the service for each call out.</b></p> <p>This information is not held – South Wales Fire and Rescue Service do not calculate the cost of individual incidents.</p>
