FOI REQUEST

1 How many animals have been rescued by the fire service in the last three years, broken down by year and animal. ?

Please see attached data

2. Where the animal was rescued from?

Please see attached data

3. What is annual cost of rescuing animals for each of these years?

This information is not held. SWFRS do not calculate the cost of individual incidents. Some services have policies in place to charge for attendances at special service calls, therefore have calculated costs in order to charge that attendance fee. South Wales Fire and Rescue Service do not charge for special service calls and therefore no work has been prepared to calculate any attendance fees.
